

# Lost Treasure

*Captain Age's  
Treasure*

One day, while Father Cuppy and the Pirate was talking, and drink there coffee in cube house garden.

The Pirate offered the lost treasure map of the AGE Captain. He asked his help to find it, so Father Cuppy agree to help him.

**In the next day, all the cubes (Blue, Diver, Birdie, and Artist) was being in the door. They were wearing the bags of the adventurers, and being ready to go for the treasure search.**

The father asked Clown to stay here, but he changed his mind when he saw how sad he become.

**Blue, Diver, Artist and Father climbed the mountain.**

**While Clown stay beside  
Birdie, who was flew and  
caught him whenever he fell.**

The pirate reached the top of the mountain and started checking the map. He told them that according to the map signs, they should head to the cave.

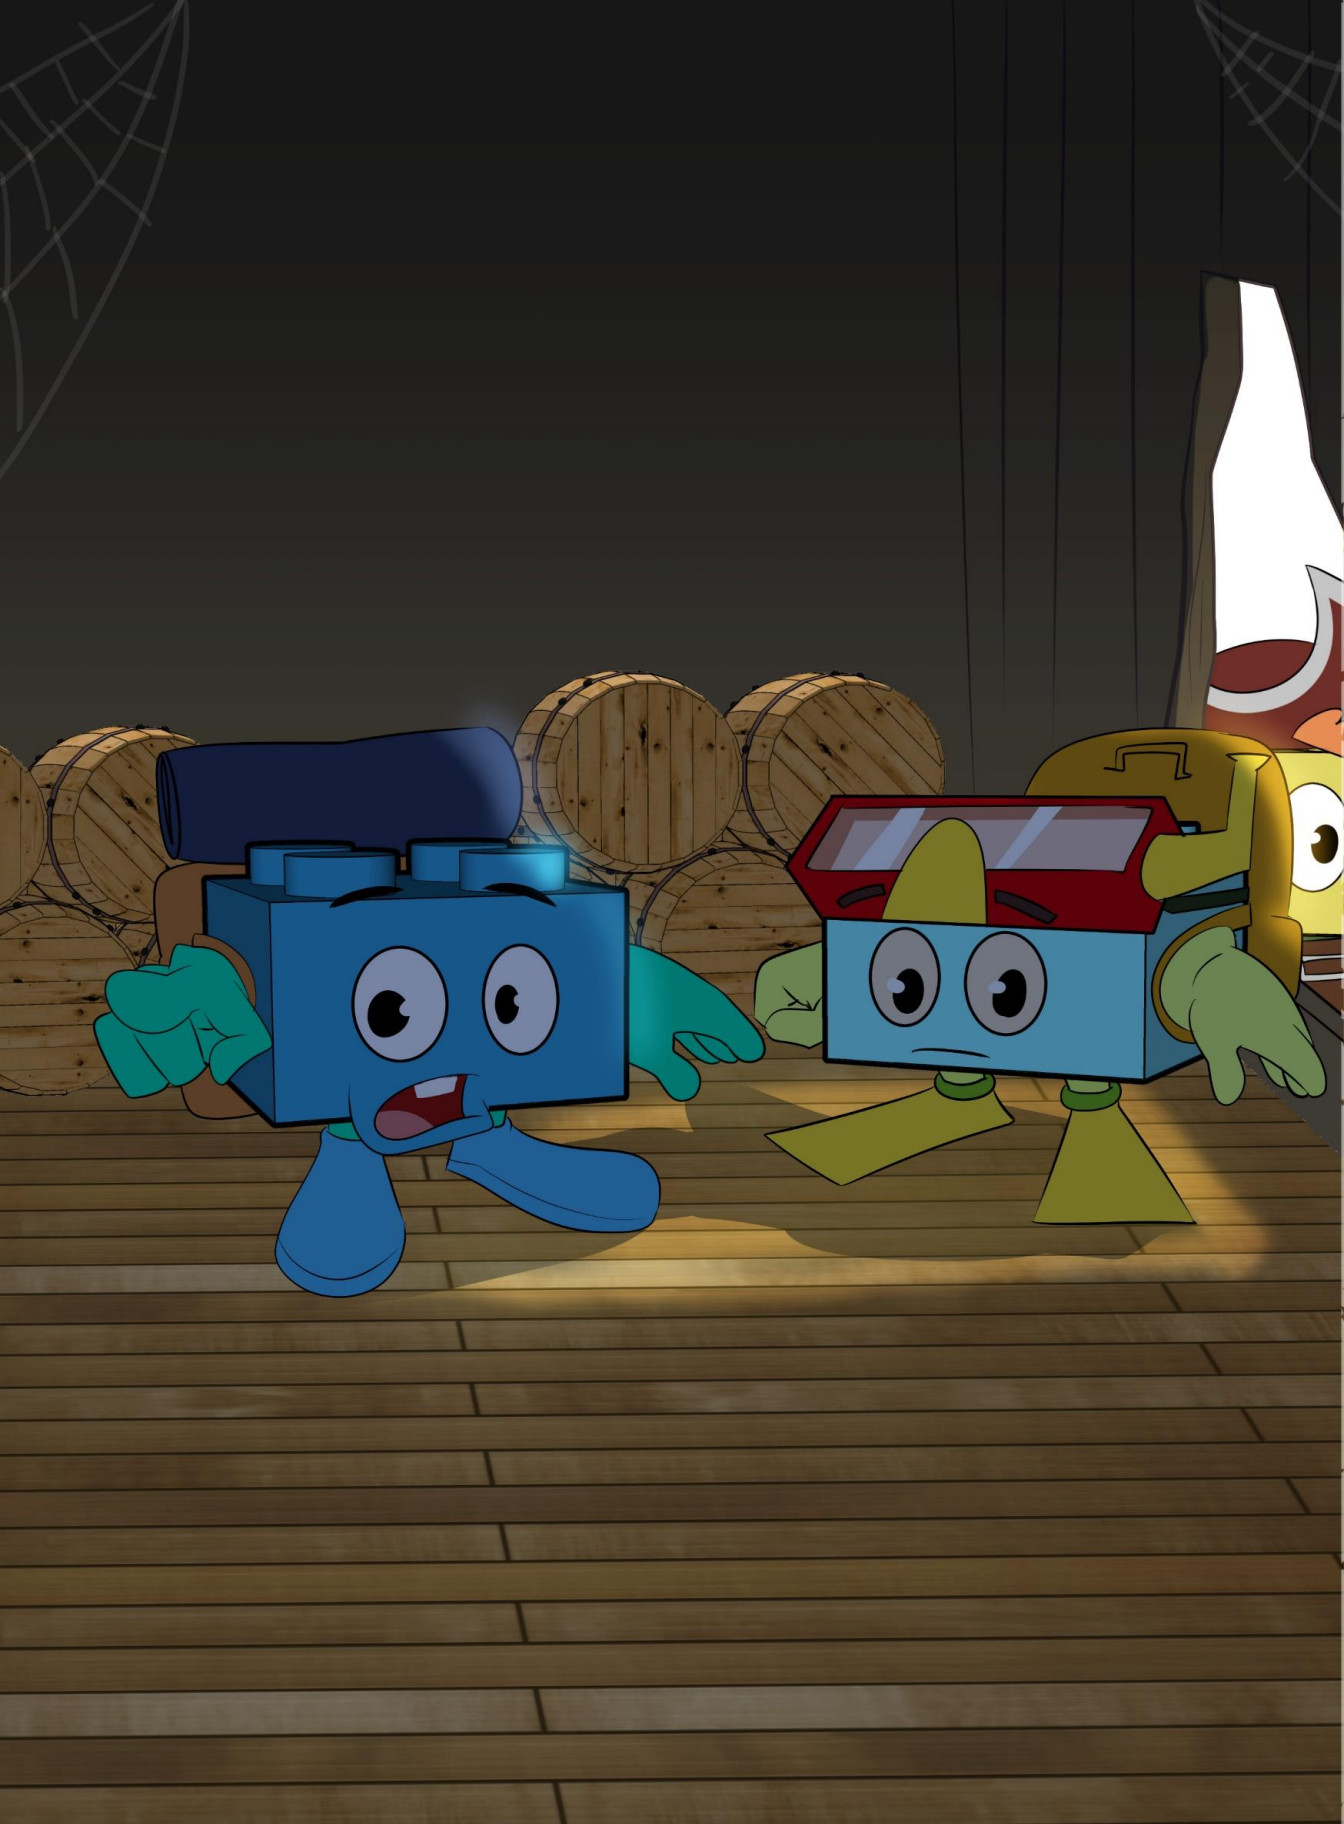

**When they reached the cave,  
the pirate told Father Cuppy  
that he was standing there  
every time, but he found the  
cave closed from the inside.**

When the father checks the map,  
he finds something missing,  
which is a pond beside the tree.

Walking in the snow, the cubes saw a large pirate ship stranded on a mountain. The ship was old with many cracks on its hull. Father found a hole in the boards and the cubes slowly entered the ship.

**"There's a door there!" Blue exclaimed.**

**Father opened the door carefully and saw an old cube sitting at a table. There were cobwebs and dust everywhere.**

"Who are you?" The old cube asked.

"I'm Cuppy and these are my friends," Father said.

"What are you doing on my ship?" The old cube frowned.

"Wait, this is your boat?" The pirate asked and the old cube nodded. The pirate quickly approached the old cube and looked at him from closer. "Hey, you are Captain Age!"

Captain Age bowed his head, ashamed of his old age.

"We're looking for lost treasure," Father said.

"I wish I had never found it," Captain Age said sadly. "Be careful, this treasure will fulfill all your wishes but it will take your years from you," the old cube said.

"What do you mean?" Swimmy asked.

"You will understand when you find it," Captain Age shook his head.

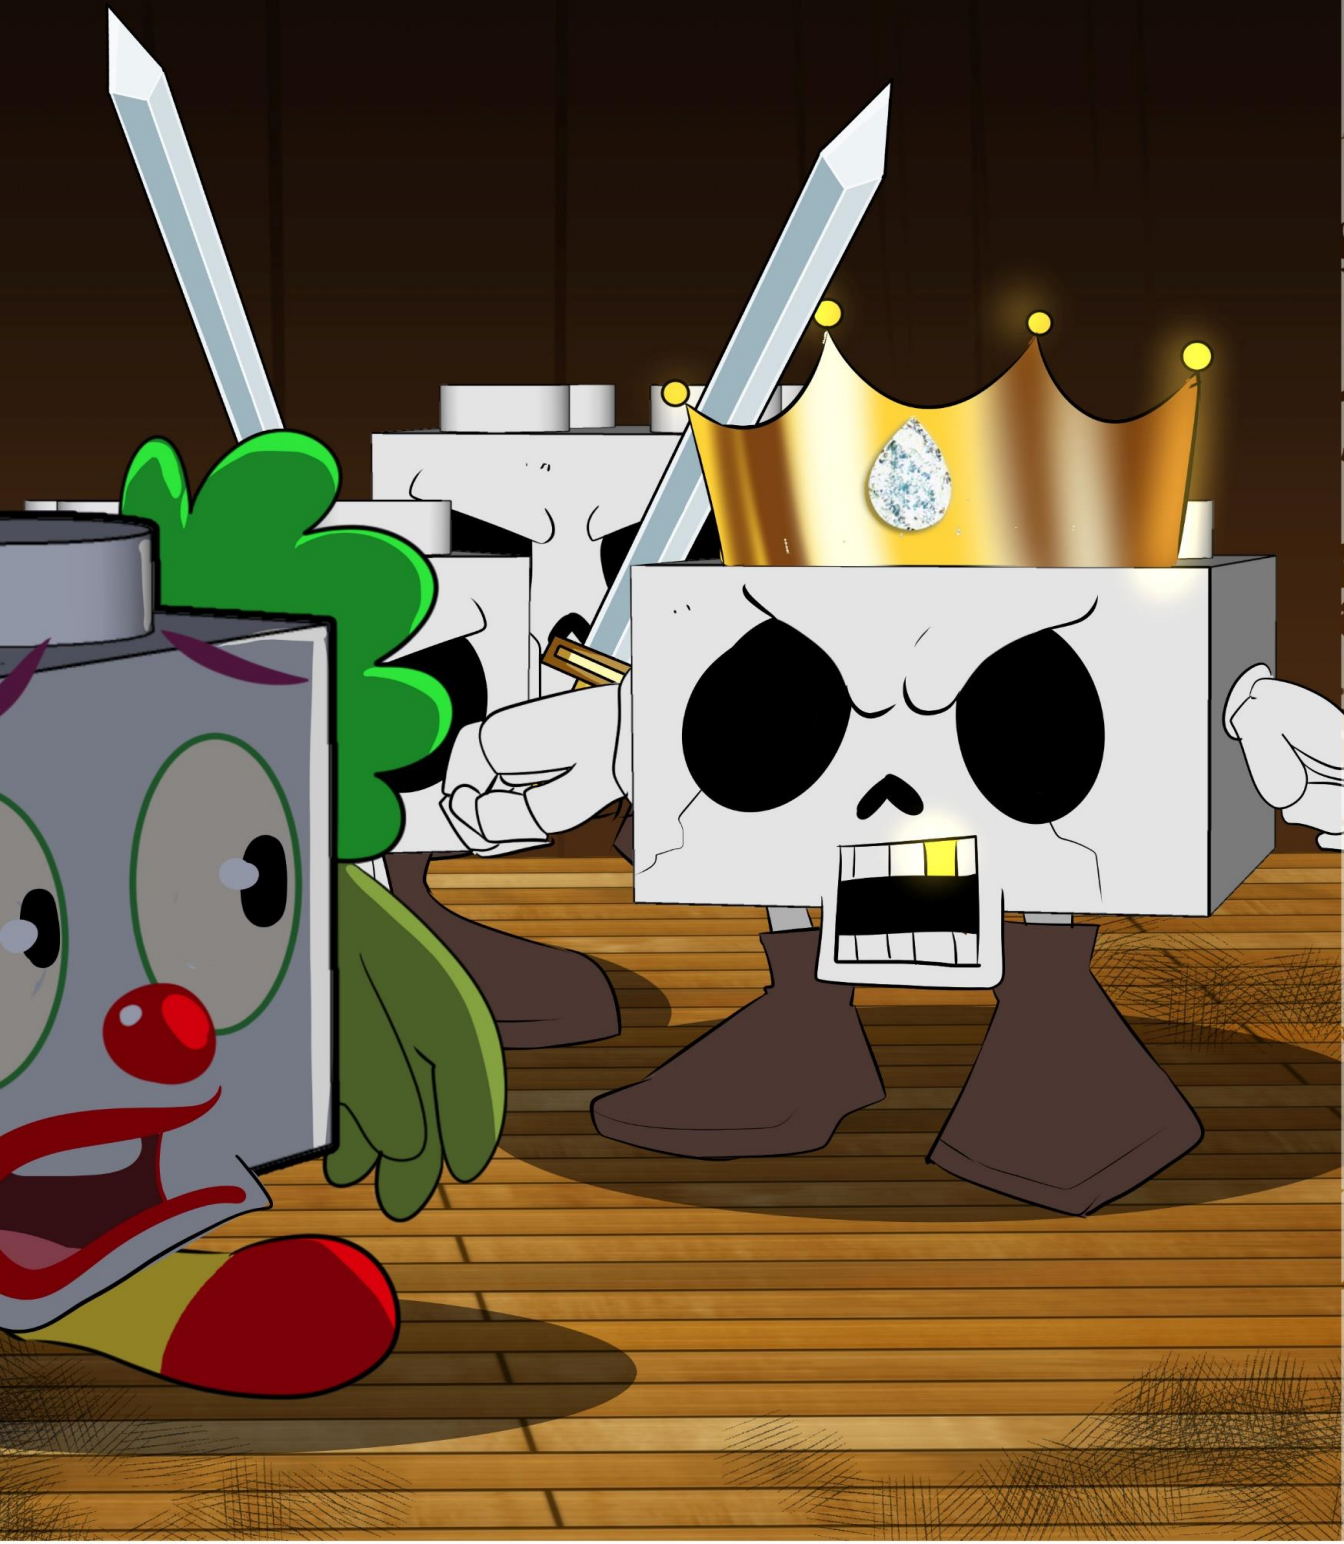

"Where is your crew?" The pirate asked.

**"There they are," Captain Age pointed to the skeletons of the cubes lying on the floor. The skeletons featured gold earrings, diamond bracelets, and pearl necklaces. One skeleton had a gold crown while the other was covered with the most beautiful dress.**

The clown approached a skeleton who had a gold ring with a red diamond on his finger, "Look, Cuppy, this ring is so beautiful." The clown took the ring and put it on his finger. Suddenly, the skeleton woke up.

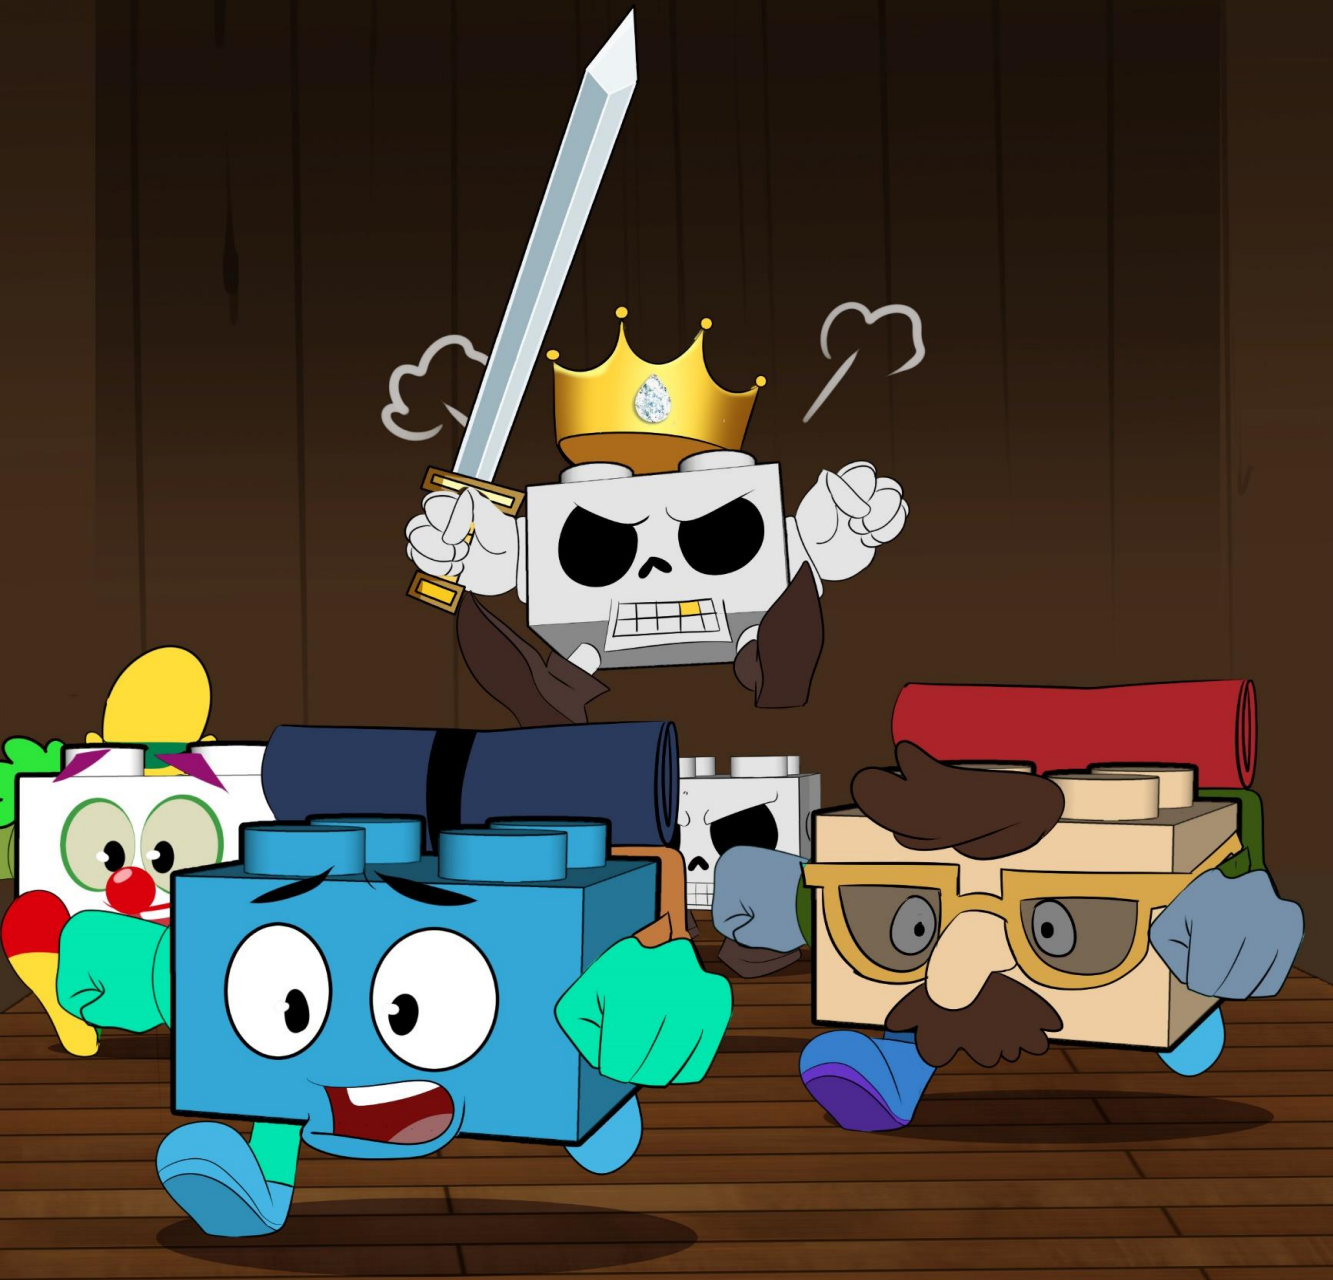

**"A-ah-a!" The clown screamed and hid behind Father.**

**The skeletons woke up one by one holding their swords in their bony arms. Small cubes surrounded by bony monsters could not see a way out.**

**"It's our treasure," the skeletons repeated in a spooky voice.**

**The clown swallowed, "What are we going to do, Cuppy?"**

**"Quick, let's run to the deck!"  
Father said, and all the cubes  
ran up the stairs.**

Therefore, he asked Birdy to fly and inspect the place from above. Birdy saw a pond beside another tree over the cave,

**Father Cuppy scan the map, and asked them to search for a cubed rock just steps away from the pond.**

Everyone was looking for it,  
but they didn't find anything.

Meanwhile Clown get close to the water, and falls his ball into the water, so he was crying.

**Father asked Driver to dive and get the ball.**

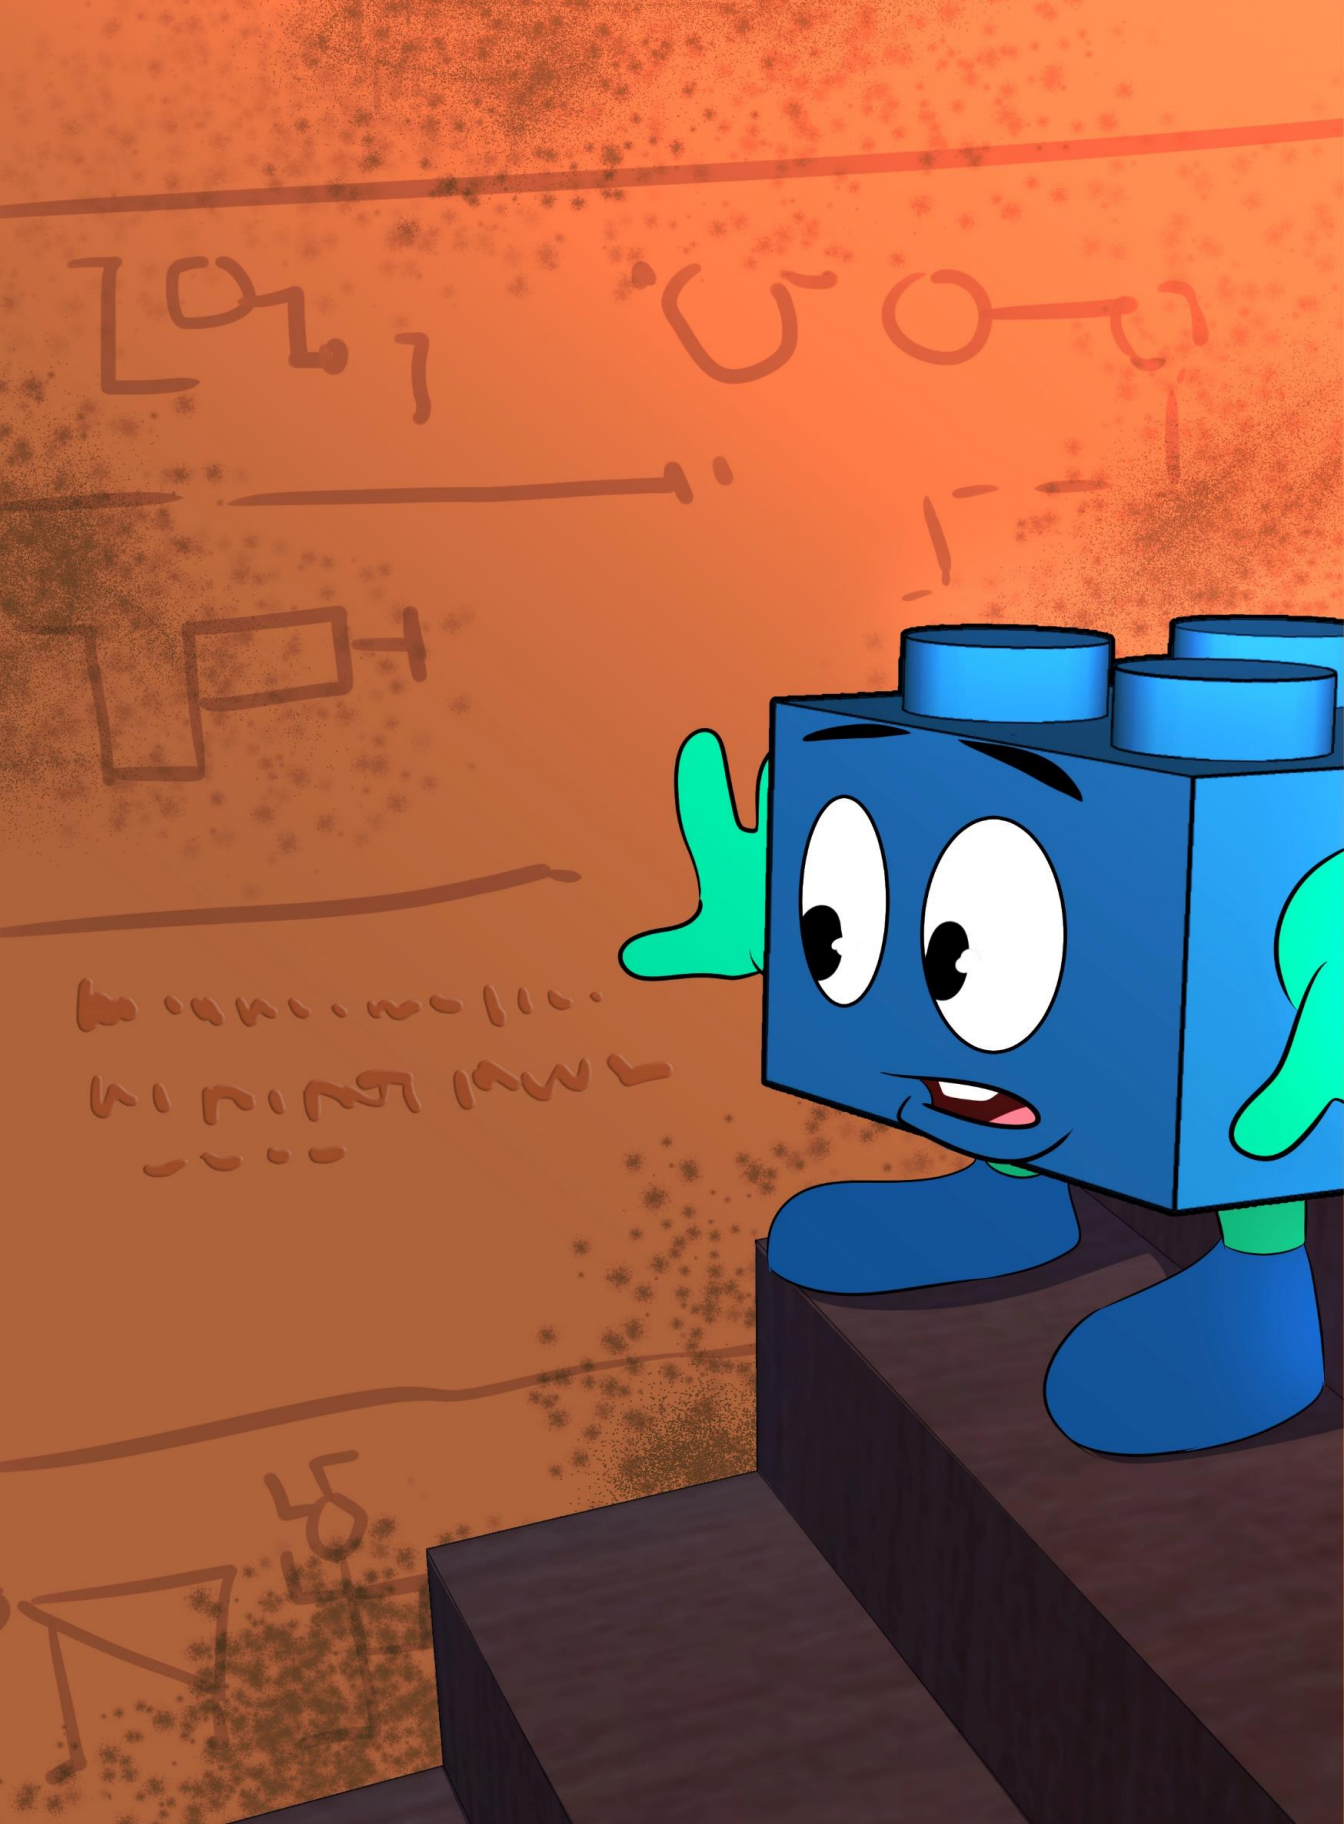

Luckily, Diver found the ball and the rock. He told them about the rock,

So they throw a rope to tie the rock. The water was decreasing as they pull the rope and then it disappears completely.

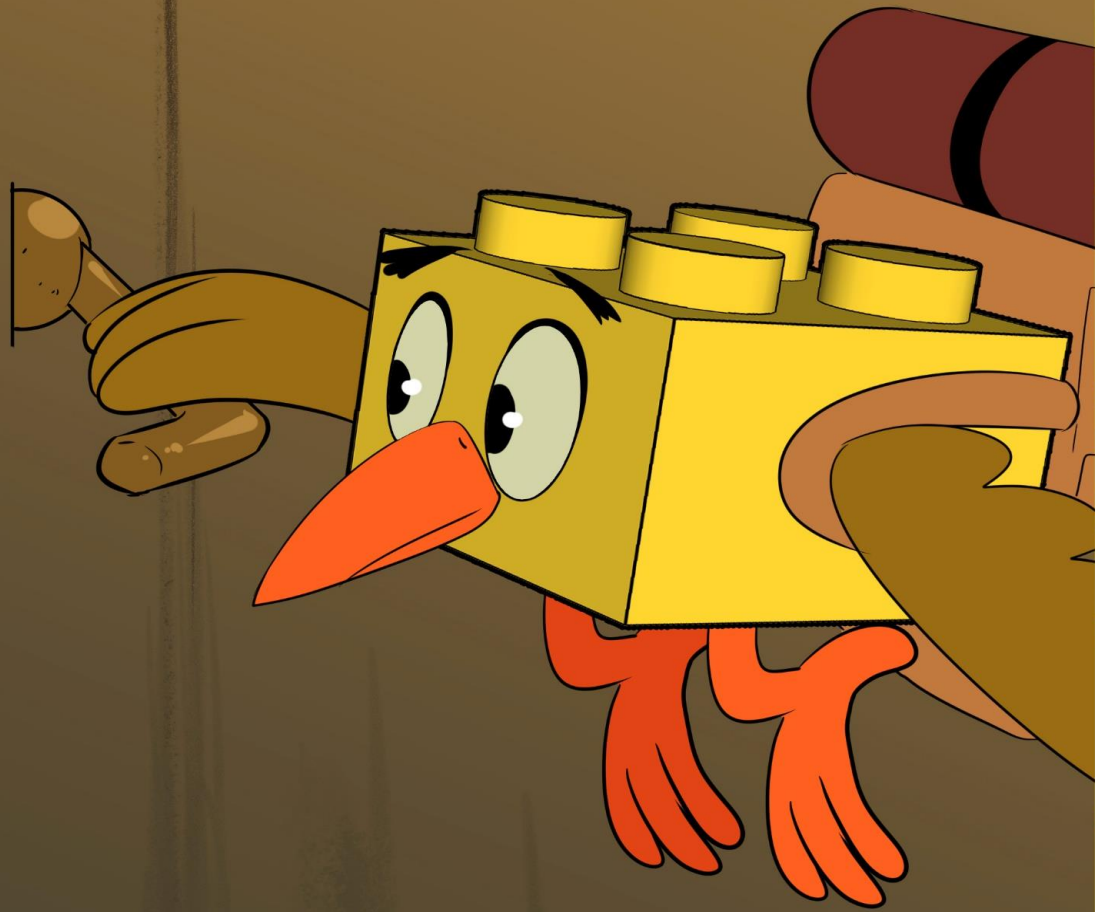

**A tunnel in the ground with a long staircase was opened. The pirate holds a lamp over his head, lights up, then enters and is followed by everyone.**

Everyone noticed that there are arrows and writings on the wall, Blue saw a phrase on the wall, and read it loudly "something that increases but decreases, as a price of gold".

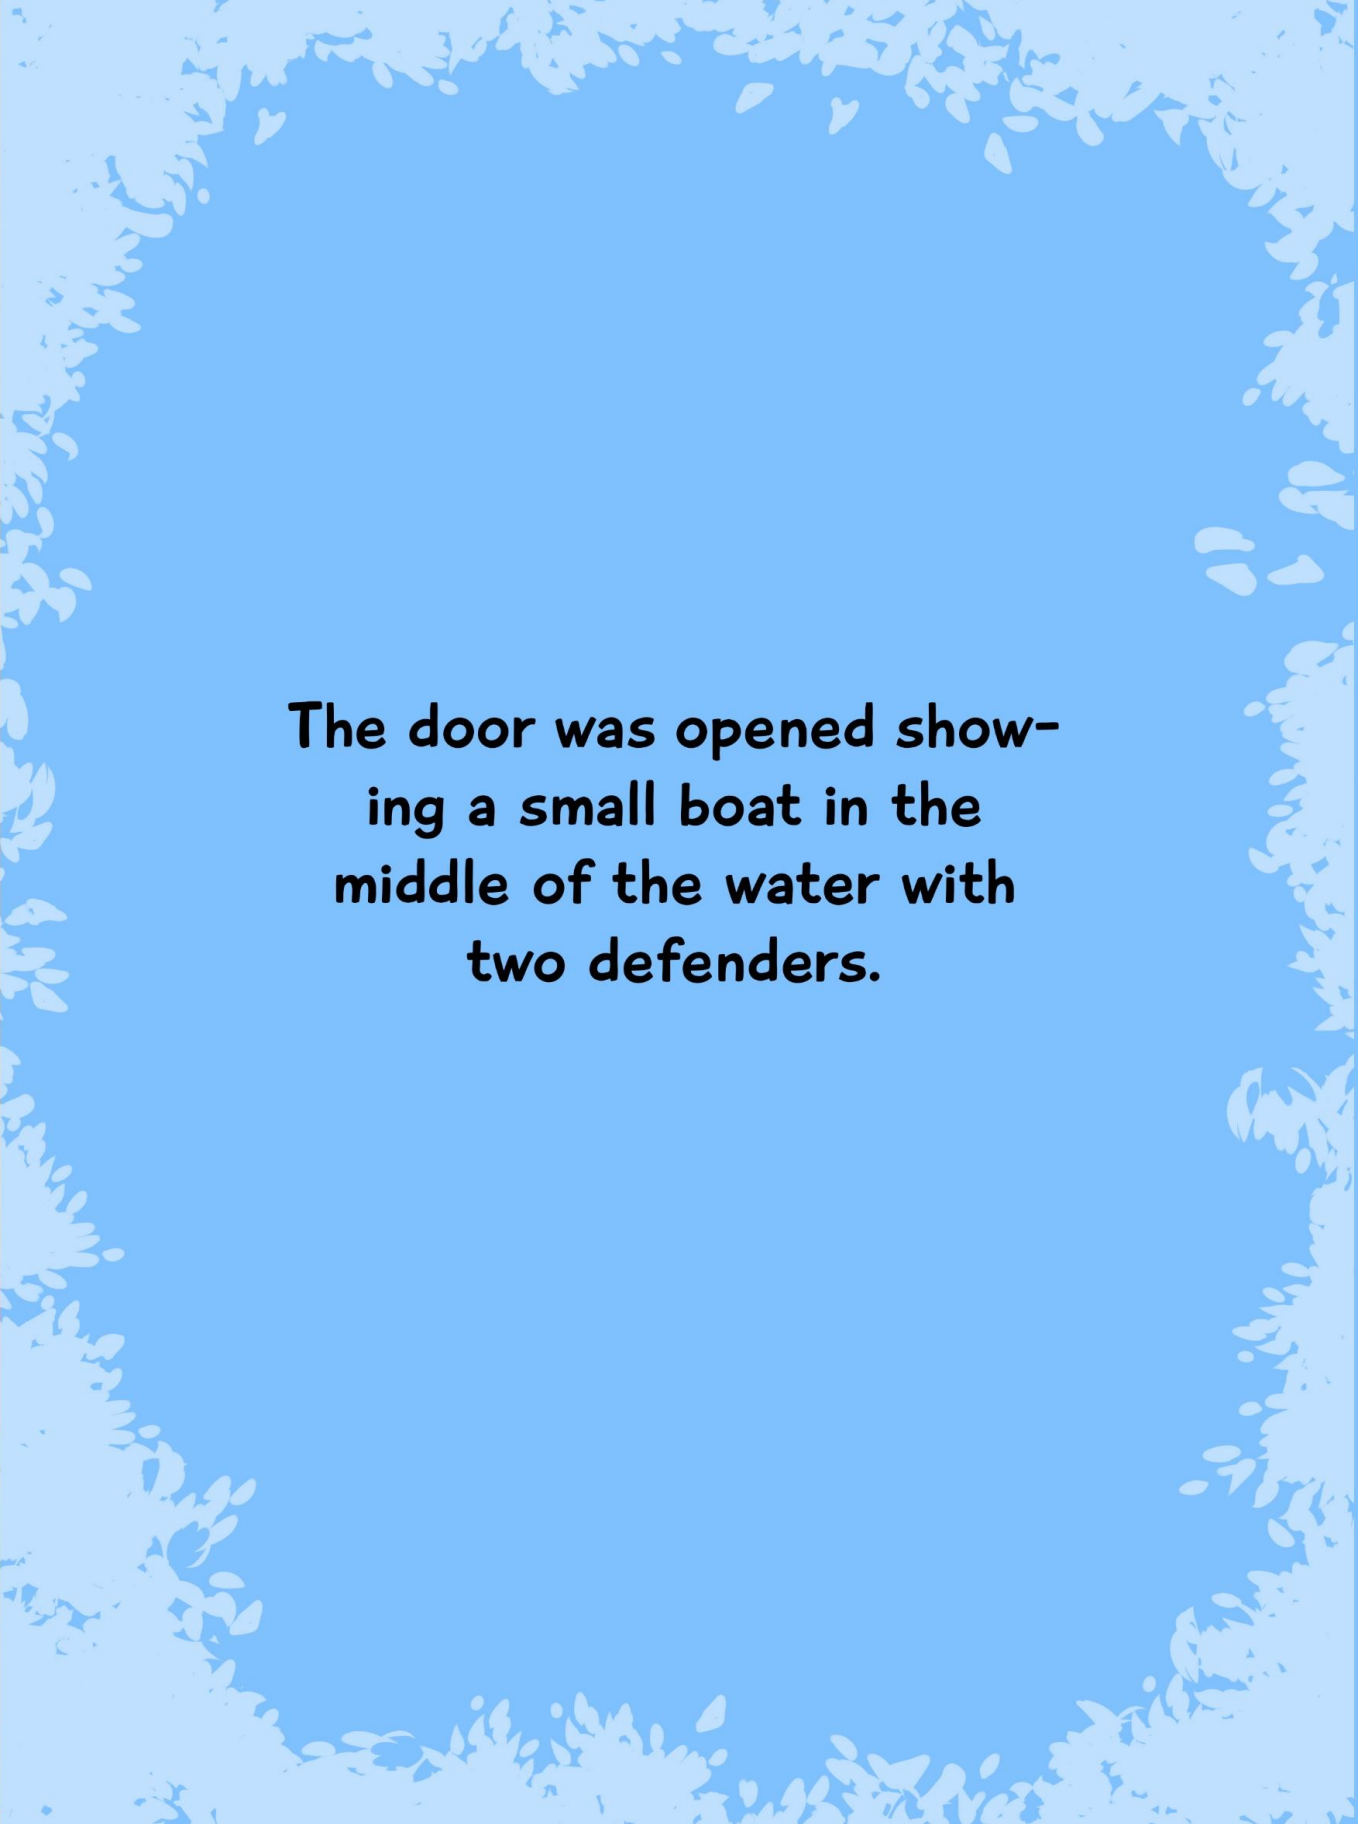

The stairs end with an impasse that has no sign. They try to touch the wall useless.

**But the Pirate checks the map again and points to a handle on the top of the wall that Birdy flies and catch it by his feet and pulls.**

The door was opened showing a small boat in the middle of the water with two defenders.

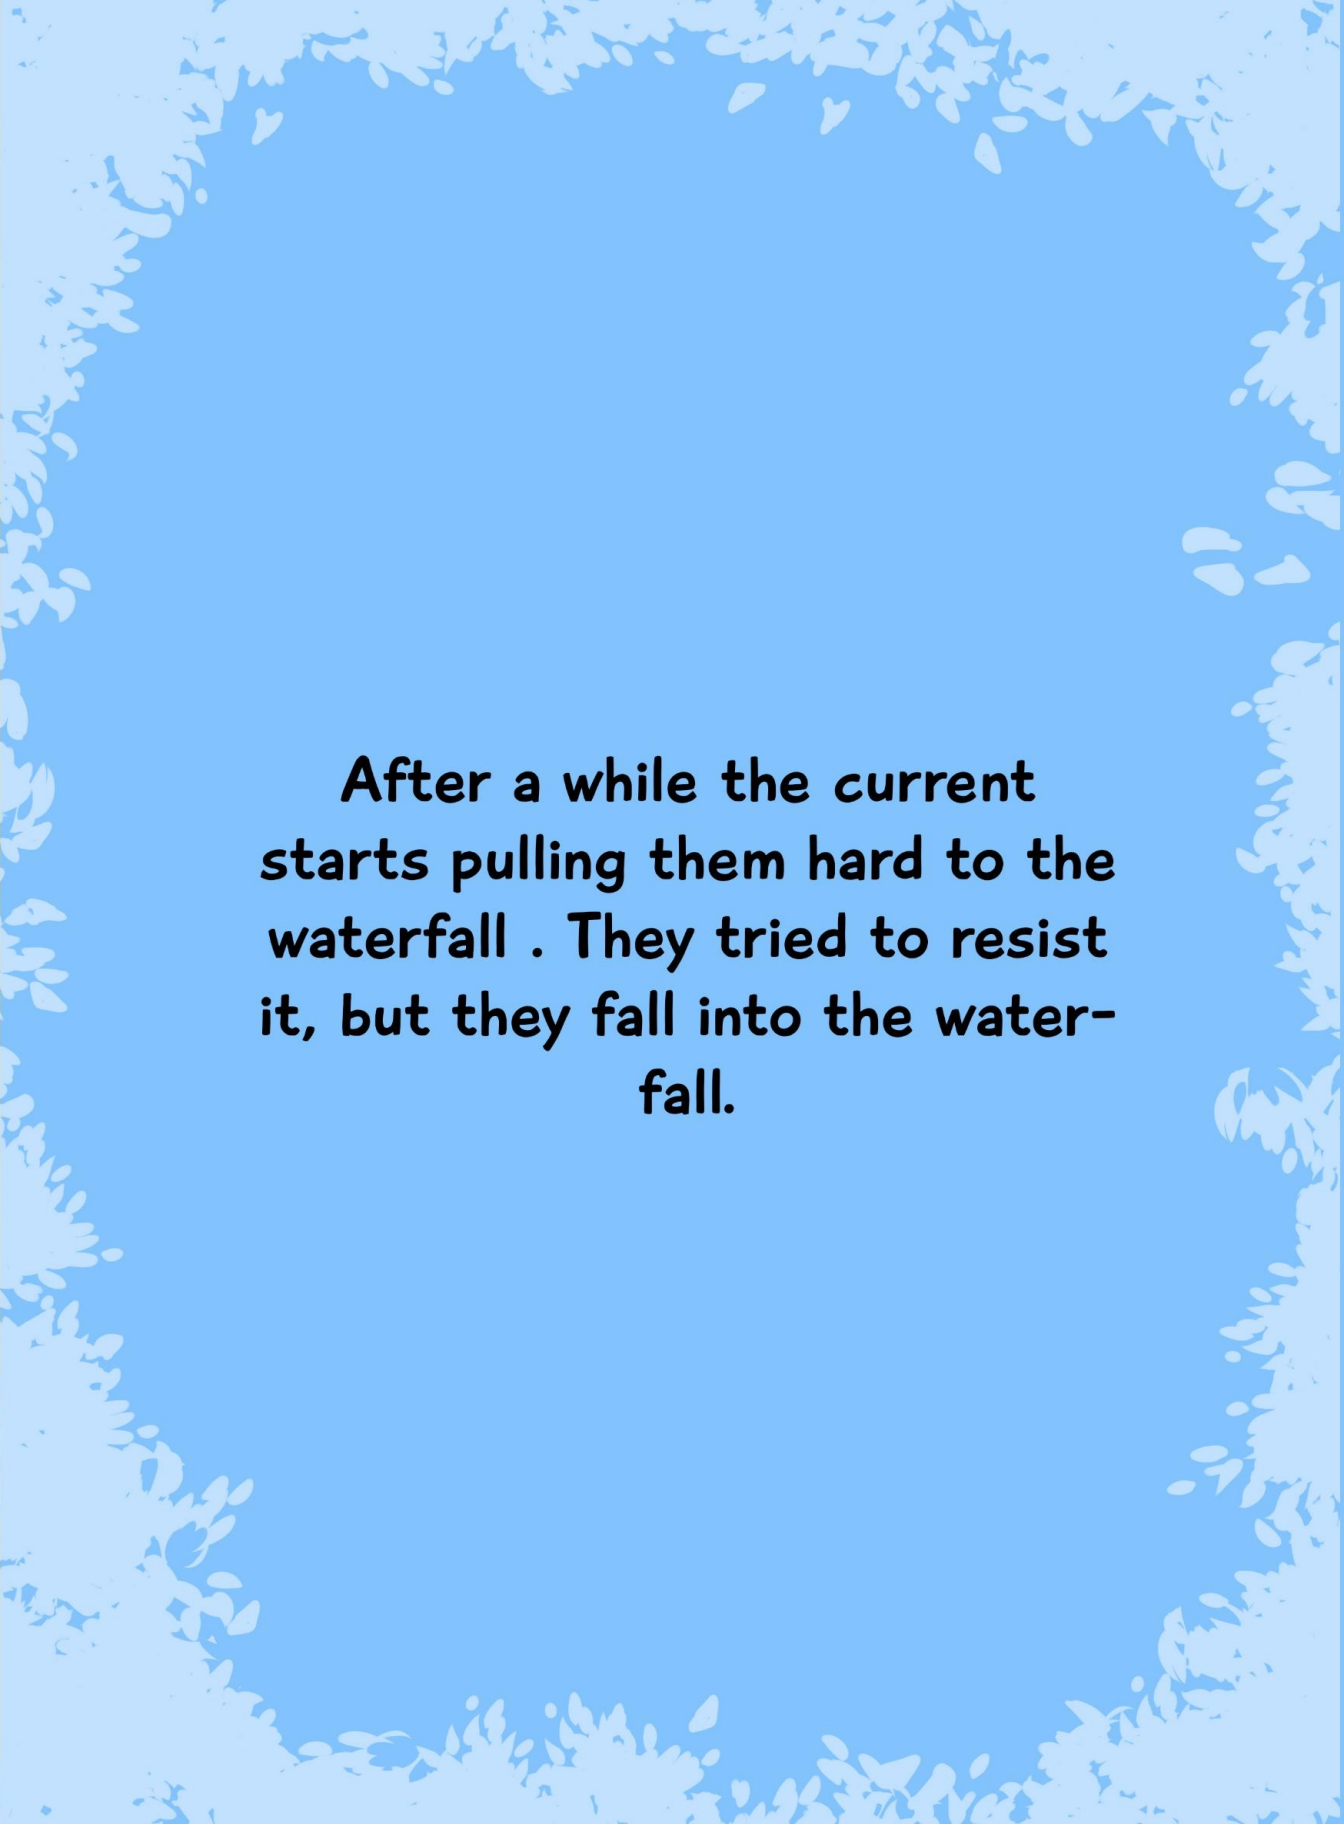

**After everyone boarded the boat, Blue and a Diver were rowing, and Artist drew. While a Clown drops the ball in the water again when he was playing.**

Father told him that we will not venture to send Diver to bring it because the place is dark and dangers, so Clown feels sad.

**After a while the current starts pulling them hard to the waterfall . They tried to resist it, but they fall into the waterfall.**

**The father wakes up first, and everyone is on the shore of a small lake in a beautiful setting with streams, rainbows, butterflies and extended green gardens.**

The pirate seems surprised because that place is not on the map. They went to discover the place, but they were running to clown sound screaming.

**Blue asked how the ball got to this place. The father and the pirate understood the matter and decided to return to the boat again.**

When they returned to the boat and all of them ride it, the pirate decided to throw a coin, while Blue throws his own cube, and Artist throws his colors and feathers, as well as a Diver who throws his glasses, and Birdy throws her nests. The father refuses to throw anything.

When they returned to the exit of clown balls, they found that their conclusion was correct. That is why the pirate got a large bag of gold, but he looked old and carried a crutch and walked with difficulty.

Blue also carried a big bag of cubes and looks old. Birdy carried a big nets and looks old. Artist carried a big bag of colors and looks old. Except the father did not change. After they got old and fulfilled their dreams, the father asked them to return to the village.

They head towards a door with a special shape, like the door of a giant castle open with a whirlpool moving. Father CUPPY passes, and everyone passes one by one.

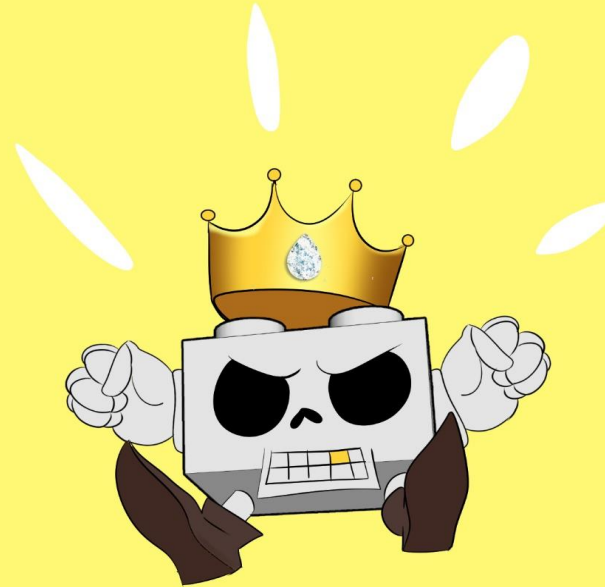

**When they arrived the village, everyone returns to their normal age, not too old. The pirate has one coin in his hand, Blue one cubic, Birdy a nest, Artist a color, and Clown a ball.**

The father asks the pirate, "Do you realize what the treasure is, buddy?" It's Captain Age's treasure. CUPPY puts his hand on the shoulder of a pirate and everyone walks.
